Unique risk management services – contractual protection – standard terms and conditions

- In conjunction with our lawyers, we have developed generic standard terms and conditions of trade specifically for ship repairers. We are able to provide these terms to your customers free of charge when they have a Zurich Ship Repairers Liability policy. In addition, our specialists can provide advice on how to incorporate these terms and conditions into their agreements with their own customers.

Your customers will need to have the standard terms and conditions approved for their individual circumstances by their lawyers. Having terms and conditions in place protects your customers and reduces their premium costs.

This service is available through you, the broker, as a value add for your customers when they have Zurich Ship Repairers Liability Insurance cover.

Please refer to the policy wording for full details of cover and terms and conditions. For more information, contact your Zurich Business Development Manager.
